HORSFORD'S AUTUMN
SUPPLEMENT FOR 1903

Fred'k H. Horsford
Charlotte, Vermont
U. S. A.

Introduction

Autumn planting of Hardy Perennials has become about as popular as spring planting with many who have tried it. In fact, many of my customers insist that their plants set in autumn have, as a rule, done better than those set in spring. I am inclined to recommend early autumn planting, so that the plants may have time to make some root-growth before winter, and also to recommend protecting all with a mulch the first year. After plants are established this is not so necessary, as the growth they produce will in a measure protect them the second winter. Bulbs which are entirely under ground can be planted later, but even these make a root growth in autumn and are better set before cold weather comes.

Parties who wish to call me by telephone will please do so at 12.30 and 6.30 P. M. during shipping season.

Lilies

Most of the Lilies of this list may be set in September, but a few like Auratum, all the Speciosums, Sulphureum, Henryi and Maximowiczi Red, are not ripe until October. Orders will be filled from beds as long as my stocks last, but for the most part the Candidums and Longiflorums will be imported.

For cultural directions and more definite description please see Spring Catalogue, which has been mailed.

These prices do not include postage, but simply bulbs boxed and delivered to my nearest freight or express office. See spring list for free delivery by mail.

Daffodils, or Narcissi

Early-flowering bulbous plants, coming before the tulips and after the crocus. One of the most important groups; fine for cutting, and of easy culture. Though any good garden soil suits, they prefer a rather stiff, deep soil, and if the situation is such that they are shaded from the sun a portion (a third or half) of the time, so much the better. They do well among shrubbery. To get the best results, they should be set in August or September, so as to make a good root-growth before winter. When late setting is done, the best results are postponed until the second season.

If by mail, add 6 cts. per doz. for those without stars, and 10 cts. per doz. for those marked with a star

	Each	Doz.
*N. bicolor Empress. Very large flowers; white perianth, rich yellow trumpet; strong grower, and fine for cutting.....per 100, $7..$0	10	$1 00
*N. bicolor Horsfieldii. Very large and early: yellow trumpet and white perianth.....per 100, $5..	08	80

Narcissus bulbocodium citrinum (Hoop-petticoat Daffodil)	05	35
N. Burbidgei. One of the most charming for cutting. Clear white cup, margined bright cinnabar-red; a beautiful early-flowering form of Poeticus, which comes before *Poeticus ornatus*. Very effective when bunched. The color of the cup is very rich when cut in bud and opened under glass.....per 100, $1..	05	40
N. Burbidgei, John Bain. Large and broad white perianth, with small, citron-yellow cup and orange-scarlet edge.....	08	50
N. Henry Irving. Noted for its deep yellow, imbricated, wheel-shaped perianth, and large and handsome yellow trumpet.....	10	75
N. incomparabilis, Queen Bess.....	05	45
*N. Johnstoni, Queen of Spain. One of the best of new Daffodils. Soft cream, delicate clear yellow trumpet; perianth same color reflexing. Flowers vary slightly in size.....	10	1 00

" " Striped	" 60 cts...	15
" " White	" 60 cts...	10
" " Yellow	" $1.25..	20

Tulips in Mixed Colors

Tulips like good drainage, and when planted over a gravelly subsoil or bottom succeed best. It is a good plan to surround the bulbs with sand, unless they are put into a sandy soil. A depth of 4 inches is none too deep for cold climates. Set the bulbs 5 or 6 inches apart.

In ordering Tulips by post, add 6 cents per dozen for postage

Darwin Tulips, Mixed	40	2 00
Duke of York	40	

Erythroniums

(DOG'S-TOOTH VIOLETS)

Early-blooming, bulbous plants, which must be set in autumn. They come up among the first flowers of spring, and are very interesting, both in flower and leaf.

Add 3 cents per dozen if by post

	Each	Doz.
Erythronium Americanum (Common Adder-Tongue). Handsome bright yellow flowers; hardy	$0 08	$0 50
E. grandiflorum. A large yellow species from the Pacific coast	06	45
E. Hartwegii. Flowers light yellow, with orange center.	06	45
E. Hendersoni. Flowers pale purple, with dark center..	12	1 25

Fritillarias

These like a sandy or gravelly soil, with good drainage.

Add 5 cents per dozen for postage for those without stars, and 10 cents for those marked with a star

	Each	Doz.
*Fritillaria imperialis (Crown Imperial)	$0 15	$1 30
F. Meleagris. Various shades, purple, light yellow, etc.	05	40
F. pudica. Also an early-flowering little plant. Hardy, with pretty yellow flowers	07	70

Hyacinths for Beds

Hyacinths like a light, loamy soil and full sun. A light coating of well-composted manure, if the ground is not already well supplied, will be of value. Plant about 3 inches deep, and if the best flowers are desired the bulbs should be from 7 to 9 inches apart.

Add 16 cents per dozen for postage if by mail

	Each	Doz.
Double Mixed	$0 10	$0 80
Single Mixed	09	70

Chionodoxa

(GLORY OF THE SNOW)

Charming hardy bulbous plants, very early; light blue flowers.

	Per doz.	100
C. Luciliae	$0 25	$1 65
C. Sardensis	25	1 65

Trilliums

AMERICAN WOOD LILY, INDIAN SHAMROCK, or THREE-LEAVED NIGHTSHADE

For the Shady Corner

Like most early-blooming plants, Trilliums give better results the following spring when planted in autumn in time to make their regular root-growth, which seems to take place a few weeks after the stems have died. They form a very pretty group, which comes into bloom early, and whose leaves make a good display after the flower has passed. Trilliums like a light soil, with a mixture of leaf-mold or peat, and for most of them a little well-rotted manure will be beneficial. Although they may, as a rule, be grown in the sun, a partial shade is the most natural place. They look best when in good-sized groups. In a good position they last almost indefinitely.

Add 10 cents per dozen if by mail

	Each	Doz.
Trillium cernuum. White	$0 10	$1 00
T. erectum. Purple	10	1 00
T. " albidum. White	10	1 00

Bargain List

I have offered for several years in my Fall Supplement this list of special bargains, which has resulted in a large trade in this way. These sets are made up of plants mentioned in my Spring List, and are offered cheaper in this way than in smaller lots because we have a larger stock of these, and in autumn we have more time to fill orders. These offers are not open to spring delivery, because then we cannot spare the time they require in filling. Those wishing to take advantage of any offers for shrubs, trees, etc., in this list, for spring setting, can get them in November, and cover them in any well-drained soil, leaving only the tips of the branches exposed, where they will keep in perfect condition, and may be set in spring as soon as the ground is ready. For cost of boxing trees and shrubs, see my Spring Catalogue. These prices do not include postage. Parties wishing these sets by mail will be given cost of postage upon application, where mailing is possible. We can ship safely by freight in autumn most of the plants we grow, even as far as California. These offers are subject to surplus stock not being sold. This stock is not a poorer grade than is used in filling orders for single or dozen lots. Evergreens should not be ordered after October 1, and deciduous trees and shrubs better not be moved before October. Bulbs and plants

which are entirely covered when set can be ordered until winter prevents. Charges for boxing trees and shrubs over 3 feet will be made at cost. Small bundles are often used for this, costing from 35 to 75 cts. each.

Shrubs, trees and plants set in autumn, and mulched well before winter to prevent heaving, often do better than when set in spring, especially when spring setting is late. Trees may be banked up 6 to 10 inches with soil, shrubs mulched with 2 to 3 inches of straw manure, and herbaceous plants covered lightly with brush, pine boughs, buckwheat straw or any similar substance that will protect without smothering.
